Education

Chaitanya Bharathi Institute of Technology (CBIT)   **Jul. 2024 – Aug 2027**
B.E in Computer Science and Engineering, CGPA: 9.28/10 (Current)   *Hyderabad, Telangana*

Govt. Polytechnic forWomen   **Aug. 2021 – May 2024**
Diploma in Computer Science and Engineering,CGPA: 9.74/10 ECET Rank: 52   *Suryapet, Telangana*

ZPHS Perka Kondaram   **May 2021**
SSC,CGPA: 10/10   *Nakrekal, Telangana*

Experience

Edunet AIML Internship   **dec 2025 – present**
AIML intern
- Selected for a hands-on AI and Machine Learning internship focused on practical implementation and industry-oriented learning.
- Working on data preprocessing, EDA, and understanding ML pipelines using real datasets.

Infosys SpringBoard Virtual Internship   **August 2025 – November 2025**
MERN Stack Intern
- Completed a virtual internship under Infosys Springboard, focusing on full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and developed TaxPal, a web application to simplify tax calculation and management for users.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

SystemTron   **June 2025 – July 2025**
GenAI and ML Intern
- Developed a Titanic Survival Prediction model using Machine Learning to analyze passenger data and predict survival outcomes.
- Performed data preprocessing including handling missing values, encoding categorical features, and feature scaling.
- Implemented and evaluated supervised learning algorithms (e.g., Logistic Regression, Decision Tree, Random Forest).

Projects

TaxPal | *MERN STACK*   **October 2025**
- Developed a full-stack MERN web application to manage expenses, invoices, and tax summaries efficiently.
- Created responsive UI components with React.js to ensure smooth user experience across devices.
- Applied data aggregation and filtering logic to generate accurate financial and tax insights.

SkillNavigator AI – Personalized Learning | *MERN Stack , OpenAI*   **October 2025**
- Developed an AI-based personalized learning platform that analyzes resumes to identify skill gaps and recommend targeted learning paths.
- Implemented resume parsing and NLP techniques to extract skills, experience, and domain knowledge from user resumes.
- Designed a skill gap detection engine that compares resume skills with role-based or industry-required skill sets.

CanteenHub | *MERN Stack*   **September 2025**
- Built features for menu browsing, order placement, and order tracking to streamline the ordering process.
- Designed an admin panel to manage menu items, prices, and customer orders efficiently.
- Automated food ordering to reduce manual errors and improve efficiency.

Technical Skills

Programming Languages: Python, Java(DSA), C,AI and ML , Java OOPS Basics, Data Analytics
Technologies : SQL , OS , Full Stack(MERN)
Developer Tools: VS Code, IDLE, Google Colab, Jupiter Notebook
Soft Skills: Adaptability, Public Speaking, Teamwork, Communication
Additional Skills: Performance Optimization

Achivements and Certifications

* 2023: Internship Certification from Pixel Quest
* 2024: NPTEL - Google Cloud Computing Certification 2025:Deolite
* 2025:Deolite certification on Data Analytics Job stimulation
* 2025: think cloud AIDS 5 days bootcamp
* 2025: Certified in AI For All (AI Appreciate stage) by Intel and Govt of India
* 2025:Participation Certification of Myntra Hackeramp(Hackthon)
